Amazing

TREE PEONIES

(*Paeonia Moutan*) Truly the "King of Flowers", both in size and stately beauty. A Tree Peony in full bloom is a breathtaking sight, one that dwarfs by comparison most other flowers. Regal in bearing—up to 6 feet tall when mature—and loaded with hundreds of blooms. Nothing can compare with this venerable monarch of the plant kingdom.

Venerable—because the Tree Peony flourished in the mountains of Tibet and China 1000 years ago. Introduced into Europe only 150 years ago, its development and propagation has been slow and expensive, placing them beyond the means of most. One still sees roots offered at \$7.50 to \$20.00 each.

Three years ago we contacted the largest producer of Tree Peonies, and arranged to take his entire crop. This year the quantity is sufficient to offer them at a price never before dreamed possible. The colors available are Pink, White, Red, and Purple. Large Size \$2.00 each, 4 for \$6.50 (Save \$1.50).

GLORIOSA ROTHSCHILDIANA

Exotic "Climbing Spider Lily." Sensation of flower shows everywhere, and widely used by florists. The blooms are gracefully reflexed, deep red with golden yellow edge. Discovered in South Africa, and named in honor of the Rothschilds, *Gloriosa* is very easy to grow and flower, and the unusual cigar-shaped tuber, as well as the fascinating blooms, will create more interest than anything else in your garden. King-size, top quality tubers, \$1.50 each, 4 for \$5.00.

"FIRE KING" LILY

Perhaps the most popular, and unquestionably the most colorful and spectacular of the European introductions. Flowers are recurved, intense vermilion-scarlet with purple-brown spots. Bears massive flower heads of 20 to 30 blooms for over three weeks during June and July. Grow 3 to 4 ft. tall on strong erect stems. Order now and be the first in your community to own this striking new Lily. Top size bulbs only \$1.00 each, 6 for \$5.00.

EXCITING TERRESTRIAL ORCHIDS

4 of the Orient's most outstanding varieties — fine for pots or outdoors.

MAMMOTH BULBS ESPECIALLY SELECTED TO GIVE MAXIMUM BLOOMS.

LILY BULBS

Because many varieties of lilies mature too late in the Fall for successful planting in the Northern States, where early freezes and winter damage are the rule, rather than the exception, we have built our lily storage cellar right into the ground so that we can keep the bulbs perfectly dormant, with no loss of moisture or vitality.

Lilies, like perennials, are quite hardy, but must become established, and we find this is better accomplished with Spring planting when they can be given proper care and attention. Tests of our Spring planted bulbs show no loss of color, size, or number of blooms!

Some lilies make bulbs the size of an indoor baseball; other the size of a small nut—but in all cases we'll ship "extra-size" bulbs—the largest and finest we can get. They're plump, healthy, bursting with vigor, carefully packed in peat and in plastic bags to retain full vitality. We guarantee you'll be converted to Spring planting—and satisfied in every other respect—or your money will be cheerfully refunded.

MAMMOTH BULBS ☐ 79¢ each
☐ 2 for \$1.50 ☐ 12 for \$7.50

CYPRIPEDIUM JAPONICUM. An attractive hardy orchid, similar to the American **Lady's Slipper**, but finer. Flowers are a fascinating shade of green, dotted red, while the lip is white, flushed rosy pink. Very striking for flower arrangements. Can be grown in pots, or planted in moist, cool borders, bogs, or rock gardens.

MAMMOTH BULBS ☐ \$1.00 each
☐ 2 for \$1.75 ☐ 12 for \$9.50

TUBEROUS BEGONIAS

Aristocrats of the shade-loving plants—fine also for pots for indoor culture. For color, and free blooming qualities, nothing can top them!

The bulbs we offer are not "Bargain Bulbs"! In all cases they are TOP SIZE. This varies, of course, some types making much larger bulbs than others, but all are the largest and finest we could procure from the world's best grower.

All tubers are carefully packed in peat moss in polyethylene bags—so that no vitality is lost in transit—and you can start them right in the peat when you get them. Bloom them inside, or start them indoors for months earlier bloom outdoors. Full cultural instructions included with order.

Double Flowered Types

☐ **DOUBLE CAMELLIA FLOWERED TYPE**. The variety most grown and deservedly popular. Flowers are vivid, large, and fully double, resembling a camellia.

☐ **DOUBLE CARNATION FLOWERED TYPE**. Similar to above, but with petals frilled, edges serrated, and thus resembling a carnation.

☐ **DOUBLE HANGING BASKET TYPE**. Fine for porch baskets, window boxes, or rock gardens. Individual bulbs produce as high as 100 blooms each.

Above 3 varieties available in these colors:

- ☐ Red ☐ Yellow ☐ White
- ☐ Rose ☐ Orange ☐ Mixed Colors

☐ **DOUBLE VARIEGATED TYPE**. Camellia-type blossoms of deep rose, mottled white. A striking combination.

☐ **DOUBLE MINIATURE TYPE**. Fully double blossoms, but smaller in size, making up in quantity what they lack in size, being exceptionally free-flowering. Fine for borders, or mixing in with the larger types. Colors vary widely. **Mixed Colors only.**

☐ **DOUBLE ROSEBUD TYPE**. A double type closely resembling a rosebud. Pink and rose shades only.

☐ **DOUBLE DAFFODIL TYPE**. Like the daffodil, the inner petals form a cup, the outer petals a perianth. Most unique. **Mixed colors only.**

CALANTHE STRIATI SIEBOLDII. By far the finest of the terrestrial orchids, having a long blooming period, and producing flowers that are long-lasting in the garden, or when cut. Should be grown in a shady place. Will stand 24 degrees, but should be mulched or lifted and stored like gladioli in extremely cold regions. Flowers are golden-yellow, borne in great profusion along the spikes—up to 20 blooms on a stem.

CALANTHE DISCOLOR. A very fine species for woodland gardens, shady rockeries, or borders, as well as for indoor culture. Flowers are borne in great profusion along the stems, have claret sepals and petals, and a three-lobed white lip which is flushed a delicate rose.

RARE BULBS

The chance of a lifetime, if you are interested in Rare and Unusual bulbs. Our buyer has scoured the world to bring to you these fascinating bulbs at hitherto unheard of prices.

AMORPHOPHALLUS RIVIERI

The "Sacred Lily of India." An extremely rare bulb that produces an enormous Callalike flower inside during the winter without benefit of soil or water. Planted outside in the spring, it produces a most ornamental palm-like tree of dwarf habit.

☐ ECONOMY SIZE \$2.00 each
☐ MAMMOTH SIZE \$5.00 each

CALLA MELANOLEUCA

The **Black-Throated Calla**. An outstanding variety, perhaps the best for garden culture. Blooms easily, flowers being a soft sulphur yellow, with a prominent black blotch in the throat.

☐ \$1.00 each ☐ 3 for \$2.50

CURCUMA ZEODARIA

The **INDIA GINGER LILY**. Huge spikes of exotic blooms are borne on naked stems in the Spring, followed by handsome foliage, much used by florists, in the summer.

☐ \$1.00 each ☐ 3 for \$2.50

EUCHARIS AMAZONICA

The "EUCHARIST LILY". The pure white, fragrant flowers resemble a miniature white daffodil. Fine for corsages and cut flowers. Also fine for pots. Can be flowered several times a year.

☐ \$1.00 each ☐ 3 for \$2.50

FANCY LEAF CALADIUMS

For brilliant lasting color, nothing can surpass the Fancy-Leaved Caladiums. The transparent, finely veined leaves thrive in the shade, making them ideal for indoor culture.

The bulbs we ship are enormous—up to a foot in circumference!

- ☐ **CRIMSON WAVE**. Crinkled transparent scarlet center, dark green edge.

☐ \$1.00 each ☐ 6 for \$5.00

HYMENOCALLIS

The **Spider Lily**. Another interesting member of the Amaryllis family. The fragrant, showy white flowers, willowy and gracefully drooping from the cup-like vase formed by the stamens present a vague resemblance to a spider. Fine for pots.

☐ ECONOMY SIZE 2 for \$1.
☐ MAMMOTH SIZE \$1.00 each

LILIMUM GIGANTEUM HIMALAICUM

Giant Lily of the Himalayas. Grows to a height of 10 feet producing an enormous stem bearing gigantic white trumpets, suffused purplish-red in the throat. Perhaps the rarest, and certainly the most difficult to collect, produced as they are in a remote part of India, and being too "touchy" to stand the long trip by steamer, we must have them flown in by air. The air freight charges alone are \$1.00 per bulb, accounting for the relatively high price, which is still considerably below competitive prices. Have only a few hundred to offer, so do not delay on this item.

☐ \$3.00 each ☐ 2 for \$5.00

ORNITHOGALUM SAUNDERSIAE

Glory of the Veldt, or Summer-Flowering Star of Bethlehem. A new, and outstanding introduction from South Africa. Sturdy stems rise to a height of 5 ft., producing huge umbels of pure white, wax-like blooms, in the center of which is a glistening black, berry-like eye.

☐ 59¢ each ☐ 2 for \$1.00
